**XT-300**

Concealable Body Armor

**NIJ-06  
CERTIFIED**

**XTREME®**  
SERIES

## BALANCED PERFORMANCE AND VALUE

Safariland's Xtreme® Series XT-300 is a hybrid design utilizing field proven Gold Shield® and structural technologies, for optimum performance. It's an affordable armor design that provides protection against a variety of threats.

Type IIIA

### INDIVIDUAL ARMOR PROTECTIVE SYSTEM (IAPS):

Choose the system that is right for you! From a family of armor solutions and special threat plates to concealable, external and uniform outer carriers, Safariland's IAPS allows you to customize your armor system based on your needs.

Safariland offers a selection of IMPAC™ special threat plates that allows you to upgrade your protection against a variety of threats.

### Universal AJ Carrier Features

- Internal panel suspension system secures armor panel inside carrier
- External material made of 100% double-cloth nylon LiteLok with Nano-Sphere repellency for long-term durability
- Combination 4- and 6- point strapping system provides maximum adjustability
- Internal liner made of antimicrobial mesh which repels micro-organisms and reduces odor
- Dual special threat plate pocket allows for insertion of IMPAC plates (5" x 7", 5" x 8" and 7" x 9")
- Retention tails (front and rear) helps to reduce shifting of armor panels
- External, hidden zippers for easy insertion of armor panels
- Available colors include black, navy, white, olive, brown and tan

# SAFARILAND

[www.safariland.com](http://www.safariland.com) 800.347.1200

Safariland warrants that its "NIJ-06" flexible body armor vests ("Vests") have been certified to comply with the National Institute of Justice's ("NIJ") Ballistic Resistance of Body Armor, NIJ Standard-0101.06 (July 2008), for the applicable NIJ threat level designated on each Vest's label.

For a period of sixty (60) months after the date of issue, Safariland warrants that the ballistic panels of its Vests shall be free from defects in material and workmanship and shall comply with Safariland's VestCheck™ used vest testing protocols for ballistic performance (as set forth on [www.safariland.com/bodyarmor](http://www.safariland.com/bodyarmor)). Vests should not be worn or used after the expiration of this warranty period (i.e., "useful life" period). Vests shall be always worn in accordance with Safariland's Use & Care instructions contained in the applicable User Manual included with each Vest.
