LIBERATOR II TACTICAL HEADSET - System Modularity -

The modularity of the Liberator II headset systems may enable the same TCI Tactical Press-to-Talk to be used with Liberator II headsets as well as other TCI Headset accessories, such as TECS, Patrol II, TACK II or other TCI headsets. This capability adds flexibility and savings for the customer. One system, using the same connectors, can be configured to enable multiple communication options, based upon your preferences and requirements.
