

AUTOLOCK® X3™ HG BATON

LARGER DIAMETER SHAFTS
= STURDINESS

SAFETY TIP®

BLACK ELECTROLESS NICKEL FINISH

Improves corrosion resistance on the inside and outside of the baton

IMPROVED POSITIVE LOCKING DESIGN

An updated cam and stainless steel ball bearing design offers reliably consistent locking action and a more solid feel in the hand when performing or demonstrating techniques

SMOOTH NOSE PIECE

Featured on the baton handle for more efficient holstering and transition from the holster to the hand

SUPER GRIP® HANDLE

Provides superior surface for the user to maintain control of the baton against pulling and twisting

STANDARD END CAP

The patented AutoLock® baton features a push button in the end cap to easily close the baton after it has been deployed

LIMITED REPAIR OR REPLACEMENT WARRANTY

AUTOLOCK® X3™ HG BATON

The AutoLock® X3™ HG is an expandable baton featuring a larger diameter shaft for a sturdier feel. The X3 HG incorporates additional improvements found in the AutoLock X3 series of batons. These features include an integrated nose guide for more efficient holstering and grip protection, improved positive locking design for greater reliability and a more stable feel with tightened tolerances.

The X3 HG has a corrosion-resistant finish and components, and includes the Super Grip® handle, which provides superior surface for the user to maintain control of the baton against pulling and twisting.

Baton training available through the Safariland Training Group. Visit www.safariland.com/training

FEATURES

- Safety Tip® eliminates sharp edges and decreases possibility of subject injury
- Black electroless nickel finish improves corrosion resistance
- Improved positive locking design offers reliably consistent locking action
- Smooth nose piece for more efficient holstering
- Super Grip® handle features a ribbed Santoprene™ material that enhances the grip in both dry and wet conditions
- Standard end cap with push cap for easy closure
